

# TURNING OVER A #NEWLEAF STEP-BY-STEP

**Step One:** Download your tree and leaf templates – and a poster for your window so other people can get involved.

**Step Two:** Watch the how-to video to upscale your tree, or draw freehand.

**Step Three:** Create your leaves (enough to place one or two on your tree each day between May 16-24). Decorate them with pens, paints, buttons and fabric. The brighter the better!

**Step Four:** Write something on your leaf for passers-by telling them why urban trees are worth protecting and why you love them. Or choose tree or conservation quotes, sayings or poems.

**Step Five:** From May 16-24, during the Urban Tree Festival, place your tree in your window so it can be seen from the street.

**Step Six:** Place a #NewLeaf on your tree every day and share via @saveourstreettrees on Instagram/Facebook, or Twitter @savestreettrees using #NewLeaf and #UrbanTreeFestival!

Find downloadable tree and leaf templates, links to leaf decorating ideas, and the how-to video under the 'Get Involved' tab at [saveourstreettrees.org](http://saveourstreettrees.org)
